WINEKEEPER SINCE 1983

WineKeeper brand dispensing and preservation systems can be found in many of the world's finest resorts, restaurants, hotels, cafes and homes. All WineKeeper brand units are handcrafted to order and utilize proven nitrogen gas displacement technology. Leakproof bottle stoppers, interior lights, two-stage regulator and insulated glass doors are standard features on all commercial models. Most models can be built in a variety of woods, metals or plastic laminates. Custom finishes are also available.

“We feature over 3,500 fine wines at Carlos’ Restaurant. The WineKeeper dispensers are attention-getting and give our customers confidence that the wines they are ordering by the glass are truly fresh. They work wonderfully and our customers love it. I even recommend the home units to many of our patrons.”

*Carlos & Deborah Nieto, Owners

Louie’s California Bistro in Santa Barbara, CA*

“My WineKeeper system allows me to showcase a greater variety of fine wines by the glass. No question that it has helped us grow our wine by the glass sales. We’ve had it up and running 24/7 for 3 years without a problem. I highly recommend a WineKeeper system to anyone serious about a wine by the glass program. WineKeeper is the only way to go.”

*Michael Weyna, Owner
The Stained Glass Wine Bar Bistro, Evanston, IL

“Our wine storage cabinet was custom designed to very exacting specifications. We worked closely with the manufacturing folks at WineKeeper and they delivered precisely what we asked for. The service was outstanding. We have it prominently displayed. It has definitely enhanced wine sales.”

*Rich Ackman, General Manager
Ivanhoe Club, Ivanhoe, IL*

“We have had WineKeeper storage and dispensing units in operation for over 17 years. They are spectacular displays for our fine wines. There’s no doubt they have contributed to our very successful wines by the glass program and 14 straight Wine Spectator Awards. I recommend WineKeeper without any hesitation.”
